Gaggle Safety Management User Guide / Using the Gaggle Interface   • • •

What notifications will I receive in the Gaggle interface?

Created by Corey Tutewiler

If you are a Gaggle Administrator, you can receive up to two types of email notifications in your Gaggle inbox.

System Admin notifications: These inform you that accounts have been provisioned in Gaggle. Every hour Gaggle provisions accounts based on newly created accounts on your Google or Microsoft domain.

User Violations: You will receive user violation notifications if you are the Default Administrator for a student or a group of students. User Violations notify you that minor inappropriate student content was discovered by Safety Representatives.
